17/5

Lachmana Setty and certain others of Belur represent that during the auction sale of Belur channa Kesava Swami temple land which fetched an additional 10 pallas of rice, they were the highest bidders, and have deposited the full amount. The sale has not been confirmed though 2 years have elapsed since the date of sale, with the result that the previous cultivators with the help of Dharmadarsi and others, have accumulated Rs 1000 as arrears, and that the lands have now come to their possession.

N.B.—Should routine notes be written on small slips, the notes must be copied, or slips pasted on this form.

G.R.S. III—3]

Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

The matter was represented to the Muznai Supdt at the time of his visit to the place some 6 months ago, but nothing has been done. May pray that as in the case of other temple cases, the Sale may be confirmed.

Genl. & Rev. SECRETARIAT

565-76

18.5.22.

Belur

December 1921

Arrived at Belur at 9 A.M. on the 9th December -

Left Banavar to Bangalore at 10 A.M. on the 12th December.

The temple of Channakesava which is well known for its architectural beauty and excellences is also one of the temples in the State which fulfils all the conditions required for a perfect Agama temple. There are two main temples in the Compound - a smaller but older one of Channigarāya now remaining without puja on account of slight damage to one of his fingures and the bigger and grander one of Channakesava now in puja enjoying all the grants of the three gods Consecrated in the Temple Compound the name of the third god whose

small temple is situated
in the Prākāra behind
that of Channakēśava
is also an artistically
built one, is Viśvanārāyaṇa
or Lakṣminārāyaṇa of
the Śāsanas. This murti
which is of great beauty is
also without puja at present
on account of slight
damage to his hand which
is easily rectifyable
according to the Āgamas.

The two big temples
are built on a platform or
terrace about 3 feet high
in the Star forming the shape
of a star or lotus resembling
the outlines of a Śrī Chakra
which closely follows the

Contours of the central structure
The Garbha or Adytum a star
shaped quadrant with three
loops at the three angles
and Vukanasi or Vestibule
forming the fourth. The
square space inside has its
sides opposite to the looping
angles of the external square
with an entrance passage in
the middle into a looping
pillar or secret chamber
behind. The Navaranga or
the Middle Hall ~~which con~~
Containing exquisitely carved
pillars of different design and
ceiling domes seems to have
been an open mantapa sub-
sequently provided with door
ways and ~~screen~~ ornamental
decorated ornamental
screens all around. The
whole building creates

in the mind of a casual visitor
a feeling of admiration, reverence
and devotion

The work of repair of
the buildings is being slowly
done by the P.W.D. The granary
has been shifted to the side
of the Yagasala as proposed
and the eyesore nuisance
by the side of the 2nd Payar Sannidhi
removed. But the obstructive
Kalyana Mantapa which stands
in the way of making pradakshina
of the Tayar Sannidhi is left
as it was. At least the Ambalams
adjoining the Sannidhi might
have been removed or the
obstructing wall removed
and the passage left free.

The mutilated Sri Chakra
basement of the main Sannidhi

by the putting up of shrine to a Vimana Brahma relief figure has not been set right by the removal of the ugly additions & the restoring of the Chalukya shape.

The people are anxious that the neglected Chennigaraya and Viranarayana should be set-right early and their puja restored. They believe that the deteriorated condition of the historical Alagarite village of Belur is partly due to these Central protective gods remaining without the periodic abhisheka puja. The Agamika with an expert Silpi repaired may be sent to form an estimate for repairing the mutilations of the several images and the consecration of them for puja.

The mud heaps round the terrace of Chennigaraya

was been removed and passage made from Pradakshina. People pray that the Tulsipa and Tulasi Tota in the available adjoining space may be protected by railings.

The mutilated murtis that are to be set right in the Chennigaraya's Navaranga are 1) Chanigaraya with one of the fingers of his right fore-hand slightly broken.

2. The Dwarapalakas with one hand gone up-to the Elbow of each

3. Saraswati in the 2nd right-side niche of the Navaranga with one finger broken.

4. The Ganesa in the 1st niche with two of his Ayudhas bearing hands broken and the proboscis damaged.

Vināyāgyana of the Vināyāgyana Sannidhi, the pendents of Sankha & Chakra broken and the Vanamala damaged.

6. Saraswate in the N. E. Corner of the Prakara, legs broken, Prabhavalaya cut and one of the hands damaged

The Ashta bandhana of the following Murtis are to be done.

1. The Saraswathi & Vinayaka referred to in 4 & 5 above.

2. The Sakthi Thayaru Murthi in place of the present Deities of Thanigaraya Temple

3. The Parasurami referred to in 6 above

4. The standing Venu-Krishna to be consecrated in the Sannidhi in the Vāhanamandapa which

one of the items to be urgently repaired.

A Statement showing the Lands belonging to Sri Channakesava Swami and another showing the D.C. Bs for the year 1920-1921 is put up. obtained from the Taluk Office are put up. A reference to them will show that only a few of the temple lands were leased out in public auction and the sales are pending Confirmation. Unless these are Confirmed immediately people will not have confidence to come forward to offer bids in the sales of other lands and the collections of the Current year will be affected seriously. Valuable wet lands belonging to the temple

are in the enjoyment of private individuals without any remuneration to the temple. Unless drastic measures are adopted and all the Devadaya lands of the temple are strictly leased out, the condition of the temple cannot be bettered, and the temple relieved from its present difficulties.

The breach of the tanks in the godi villages containing temple lands had contributed to the fall in temple income. The Mattavara-Tank is being repaired and the Temple has to make a contribution of Rs 200/- this year. The other tanks whose repair would contribute to the increase of Temple Revenue is that of Danaya Kanahalli there in the

temple have $\frac{1}{4}$th share. The temple have not been getting any share in the forest and other produce. Various grants to one & the settled.

The scale of the temple was revised in 1919 on the basis of the average income of the previous five years. which was calculated at Rs. 2610 and 5,500 seers of rice. The cash collections from temple lands is not shown fully as the collections from the lands freshly leased out by sale could be effected only after the sales are confirmed and the ousted royots have refused to pay the arrears. The total Varumabandi for the year was including arrears

to the extent of Rs 2540/ and
516 Kandis of paddy was collected
Rs 3100/- and 2064 Candies of
paddy; and the Collectorate
Rs 415- and 266 Kandis of paddy
Drastic steps are reported to
be taken for the collection of
long standing arrears. The
rice income has risen by about 800 Kandis

The greatest delinquents
are reported to be some of
the Dharmakarsis and respec-
table people of the place. Some
of them have not paid Kandayam
for the lands in their enjoyment
for the past 10 years. The
Krishna Raj retired Amildar
has built a house on the
Templeland and has not
paid the rental value fixed
for it by the Dy. Collector for
the past few years.

The Dharmadarsis are factious and do not care to attend meetings, and so do they cooperate with the Archakas for bettering the condition of the Temple Each wants to have the things in its own way, but all are unanimous in complaining that they have no power to do anything without undermining their power involves responsibility and penalty however it is not properly exercised.

Some of the temple Servants have complained of the insufficiency of their present pay. The Vedaparayanikas and the Adhyapakas are asked not to care to attend to temple

Seva regularly, similarly some of the other workers who are paid only Rs 1 each with no other kind of allowance

The Utsava Murthi of the Temple is a heavy one and requires the services of not less than 4 persons to handle them. Originally there were three Mannadis on Rs 2/- each (In the revised scale these are revised to 2 or Rs 1 each) the people pray for the early sanction of an additional Mannadi for the above work. The Gollars who were getting Rs 1 each and 65 Seers of rice each have been given in the revised scale Rs 3 each and 10½ Seers of Puddhanna each pray for some more rice allowance as they cannot maintain their families with the present allo

no Contingent allowance is
provided in the revised rate
The parapattegar states that
it is impossible to make
stationery and other purchases
& meet unforeseen chages
unless a permanent provision
is made in the temple budget.

The purchase of a clock
is urgently needed for the safety
of the temple. ~~Urgent~~ immediate
sanction is requested for the same.
During Kalidtsava large concourse
of people assemble. The present
provision of Rs 200/- and 800/- seers
of rice is reported to be insufficient
to meet the expenses of the Utsava
& Pantarapanu. The peopleprayed
that the Pame may be increased
by Rs 50/- The extra expenditure
of about Rs 40/- incurred

during the Rattotsava of the year previous to the previous still remain unsanctioned. Sanction is solicited for the bill submitted therefore.

Orders were issued ~~by~~ during the last inspection by the Sheristadar that the useless gold and silver bimbles of the temple in the Taluk treasury should be melted under the supervision of the subdivision officer and coverted into bars. Nothing seems to have been done in the matter. If this is done; a decent quantity of silver and gold will be available for temple use as also the precious stones of the thrown out jewels

It is proposed that these should be converted into substantial jewels for the occasional use of the idols

et Kavacha to Utsava is very
essential. A light-gold quilt
silver Kavacha may be made
and a necklace with Serial
pendalas for the wearing of
Utsava Deva, important Utsava
Araja mudi to the Utsavars
in Rajamund and Mukuta
may also be made if funds
permit. The correspondence in the
matter is put up.

As to the questions pending
regarding the repairs, etc of
the temple; the repairs are
being done. The revised
estimate for other urgent
items is under Consideration
The repairs to the Vahanamantaps
and the Compound wall is
urgent The proposal
to varnish & preserve the
sculptures on the temple-walls
is still at-an experimental
stage The roof were placed

at the disposal of the Geological Dept. for preliminary investigations and experiments. The debris has been removed from the Compound and the Pradakshinas of Chennigaraya & Annamacharya now present a neat appearance.

As to the claimants of the Upasapuja allowances the Govt. has called for information, on whether the present claimants are the real descendants of the original Samadhis and hereafter their claims are justified

The Compound of Sri Lakshmi Vallabha Swamis Vrindavana at near the Vishnu Samudra Tank is very necessary as the place is very unclean owing to people committing nuisance near the Brindavana. The revised original estimate

for a compound wall at a cost of Rs 2500/-. has been returned for want of funds and a reduced estimate for a cheaper enclosure has been called for.

The Chattram: The scale of the Chattram was revised in 1919. The income from its maintenance is about Rs 47-9-0 per annum. The Chattram accounts were examined. There are at present 7 inmates feeding per day in the Chattram - three Chattram members and 4 Vaidika members of the family attached. During the Vaiba season, for six months the Chattram is much frequented by pilgrims. The average extra attendance per day comes to about 3 persons

The total number per day including mehimar is about 10. The Chattram allowance of Rs 24-8-- per month is made quite to meet the expenses. The Chattram peon is given at present Rs 2/- per month and one meal. The Cook and the Servicharaks together Rs 10/- and one meal. It is not possible to get servants at such small pays. Some increase to the peon is necessary.

Madichalli 14/13 acres
Prasadichalli
Andale

Decent dharm lands as shown in the margin are endorsed to a Chattram at Madichalli a village Andale about 2 miles from Belur. The Chattram is in existence at the place & the lands are being enjoyed at present by a private individual if these lands are taken away by Govt. and leased out the income from them may

be utilised for the better main
tenance of the Chattram.

The Sanskrit Students
are very poorly fed in the Chattram
at present - too with one meal. Whereas
the Students receive better meals
& treatment in Mr. Samanaiya
Chattra Only Students who can
not get admission into this favorable
Chattra & who are absolutely poor
, cannot afford to get Chattram. The
Chattram building requires
occasional repairs & Whitewashing;
but we do not permit it at present.
The Chattram has no vessels. All the vessels are Completely
worn out & become
useless

Other Minor Matters

Amirtheswara temple on
the bank of the Vishnu Pushkarani
Tank. This an old temple
in almost a ruined Condition.
Devotees have Contributed
Rs 100/- for the immediate
repair of the Temple but

repair has been done to it as yet and the Temple building is getting worse.

Varadaraja Ranjandeswara is another Shiva Temple.

This temple is also in a bad condition. It is situated on the side of the Chattram to the North East of the village. Its devotees have also contributed Rs 25 towards the repairs People pray that the repairs may be undertaken soon. Caused by the beautiful murti of Varadaraja parivara is in the Temple without - protection. It wants the visitors to watch and pray. There is a need for conservation work in the temple.

The Temples at Halebid was inspected. The refuse reported to have been accumulated in the Compounds of the Basti temples placing making the places insanitary are removed and the temple Compounds are kept clean.

The Temple of Ranganatha in the Halebid village is a neatly built architectural one of the Hoysala type, in a thoroughly neglected Condition. The temple is endowed with lands capable of yielding about Rs 500/- annually, but the lands are in the enjoyment of Pujaris who also Conduct worship in the temple. The Temple is without puja.

The temple has the Talwar symbol of the Vaishnavites.

Two Temples with nicely carved
pillars in its Navaranga.
The Murti inside is the beautiful
figure of Ranganatha reclining
on a seven hooded serpent
with the right leg & breast bent
& supported by Bhumi Devi
seated attended by a Chamara
bearer and Sri Devi similarly
seated near the head. The left
leg is bent across the right leg
There is Brahma in the Nabhi
Kamalam. The beautiful
Carved Gopuram as one
has to Arulara on the way.

There is also the Utsava
murti with 2 wives & two consorts
who seem to have had no
washing for months together
The repair of the Temple & the
restoration of its pristine glory

Visited Tirukovilur a famous
village of the Srivaishnavite

There is an Adbhuta Murthi
of Ganesa in the process of
formation enshrined in
a temple & worshipped. The
Murthi was a curious phenomenon
Its form Contour is perfectly
formed with the legs, belly, head
hands and the trunk. Layers
are reported to fall off from
time to time from the hill showing
massive rock and well-defined
features & brought-to view
from their insides. The statue
is being raised, naturally from the reclining
posture to the standing by the
growth of the rock from underneath.

The other important
temple of the place is the Thirumurthi
Trikutachala a temple. The
temple is with beautifully carved
walls rich in images and
exquisitely sculptured pillars
with its three Vimanas

in Kerala is an excellent speci-
men of the Hindu with a sound
plan different from the other
Trikūṭachala Temples of
the Province. The Cent
shrine of Saraṅgapāṇi is richly
planly built with light &
shade pilasters & recessed
projections in the fashion of
the Jain Basties. The towers
& assisted by gopuras, in an
entire temple with Navaranga.
The other two shrines opposite
to each other whose walls &
Mandapas are richly decor-
ated with beautiful carvings
of images and Jagati form
another temple of Dakshina
Style. These two are connected
by by a Colonnade of adorned
pillars with beautifully
carved Ceilings. The whole
structure with spacious

double mangadmantapas
presents a pleasing sight.
From [illegible] this beautiful
temple was erected in
1760 A.D. [illegible] as the
[illegible] of the Mangala
work. The entrance into the
double mantle is through a big
well carved ogival terrace, resembling
a typical roof with gables.
[illegible] the temple is in a
well carved condition some of
the mantapas [illegible] and
[illegible] of pillars in the main [illegible]. It was
told by the Pelidar that
Rs 6000/- was sanctioned
by the Govt for the repair
of the building. Another
peculiarity of the structure
was the parapet on the terrace
was built by statues of
[illegible]

Notes of inspections from the last inspection of the Superintendent.

The Vahanas of Sri Chamundeswari temple are huge and heavy, it is difficult to move them to carry them in Utsava. The Guildar has suggested that a Car like the smaller ones used in Bangalore Temples and another platform, strongly built for placing the Vahanas ones & dragging them with help from the temple.

The sanctum of Chamundeswari is very dark during day time and good viewing of God and the Rangamantapa is impossible to be obtained without artificial arrangements for light. Some lighting arrangement is

is very necessary for the people

The Kalyana mantapa was for some time being used for Katharabhava. If this mantapa is properly repaired, it can be used again for the purpose and some expenditure for the construction of the Kalyana mantapa for the Utsava Panchamurti.

The old kitchen which was behind the Viranarayana Pannidhi which should be removed or repaired & kept clean and made useful for temple purposes. The other items of repair have been noted down by the Amildar.

The Virabhadra temple

is situated at a distance of some miles from Belur at Kapol. It is in a dilapidated condition. The temple is a tiled house having Pannadi pagar etc. rich land in

the Madaghatta are village were
once enjoyed by the Patel
of the village. It is reported
that the Upadhyaya Inamdar
who was once living in
Madaghatta ever since ca.
[illegible] the
by force, was expelled
by Madaghatta in the year
and the income from the Inam
lands appropriated for some
years. By an estimate
some Rs 600/- were collected
from the Madaghatta people
towards the arrears and the
Upadhyaya restored to the
Antiteke temple. If the
lands are ploughed in
and they are likely to yield
a good income the
temple of Antiteke can
be repaired & arrangements
made for regular puja

The Vasantha Mandapa on the Vishnu Pushkarini Tank bund is in a bad condition and the Rajendra Cholan Mandapa is also in ruins. If the tanks is not repaired the former as at least it requires to be repaired and used for Rajendrathana. It will also accommodate travellers and people who resort to the Tank for bathing.

The Financial year

I am told that the Sothern fort which has a cash grant of Rs 12/8 takes it also in the name of Kanaka Perumal. The devotees complained that they contributed Rs 25 for the purpose and nothing was done as yet by way of repair.

Repairs are being done to the Navaratna Mandapa in the South East of the Surrounding

streets. It is a nice mandapa capable of accommodating a large concourse. It seems the building had originally a hall on the terrace built of mud walls and sides. The people pray that the Govt may see convenient again and made available for the used pilgrims during jatra and patasala students during ordinary days

Deputy Commissioner,(in charge),

Hassan District.

A.V.Ramanathan, Esquire., B.A.,

Secretary to Government,

~~Revenue~~ Mysore Department,(in charge).

S i r,

With reference to your letter No.6775/ Miz.714-21-3 dated 6th June 1922 forwarding for enquiry and report petition from Lakshmana Setty and certain others of Belur complaining against the non-confirmation of the sale of the lease of inam lands endowed to Sri Chennakesava Swami temple at Belur, I have the honor to state that according to the Government order of 29th August 1917, the lease of the inam lands for a period of 5 years were advertised for sale which was conducted by the Shekdar on 5th April 1921. Several occupants petitioned to the Sub Division Officer as well as to this office praying that they may not be dispossessed from the land since they are in the adverse possession of the lands from time immemorial. The petitioners also produced several documents in support of their claim. The matter was enquired in detail and finally orders were issued in this office No.Miz.719-20/P dated 4th June 1922 allowing six persons to enjoy the land on payment of the amount fetched in the sale for period of 5 years and confirming the lease of the lands to the rest who had offered the highest bids during the sale. The delay of one year was due to the detailed enquiry that was necessary to dispose of the adverse claims brought forward by several persons.

I have the honor to be,

S i r,

Your most obedient servant,

Deputy Commissioner(in charge).

To

The Revenue Commissioner in Mysore.

Sir,

In forwarding herewith a copy of letter No.343-21 dated 17th June 1922 from the Deputy Commissioner, Hassan District, reporting on the petition of Lakshmana Setty and certain others of Belur complaining against the non-confirmation of the sale of the right of cultivating the inam lands endowed to Sri Channakesavaswami temple at Belur I am directed to observe that the Govt. order of 20th August 1917 directing the leasing out of the temple inam lands for 3 years was carried out in 1921 and to request that the explanation ~~for~~ out and the delay in passing orders ~~on 4th June 1922 on the result~~ of June Memo No. Therefor about the Confirmation of the sale conducted by the Sheikdar on 5th April 1921 should be obtained and submitted for orders of Government at a very early date.

I have etc.,
